FRANCIS FWETA

PMP® Certified | MEAL Specialist | Impact Evaluation Consultant

fwetafrancis@gmail.com | +265 885 675 877 / +265 993 888 578
Blantyre, Malawi | Available for International Assignments

EXECUTIVE PROFILE

Senior MEAL and Impact Evaluation Consultant with 7+ years of progressive experience designing and leading evidence-based monitoring systems, evaluation frameworks, and digital transformation strategies for high-value humanitarian and development programs. Proven track record delivering complex assignments for the United Nations, World Bank (IFC), USAID, European Union (ECHO), and leading international NGOs. Expert in conducting end-to-end evaluations (baseline, midline, endline), post-distribution monitoring, market assessments, and impact studies across agriculture, food security, livelihoods, nutrition, gender, climate resilience, and humanitarian response sectors.

Distinguished by rare combination of MEAL expertise, full-stack software development capability, and advanced data science proficiency (Python, R, SPSS, STATA, Power BI). Recognized for designing real-time digital MEAL systems that transform complex datasets into actionable intelligence for program improvement, donor compliance reporting, and evidence-based policy influence.

KEY ACHIEVEMENTS & VALUE PROPOSITION

- **Strategic Evaluation Leadership:** Designed and led USAID-funded endline evaluation for the Limodzi project (HIV prevention, maternal health, GBV response), delivering findings aligned with OECD-DAC evaluation criteria and international best practices.
- **UN Climate Assessment:** Led focus group discussions and data collection for the UN Environment Programme (UNEP) National Climate Risk and Vulnerability Assessment, contributing to Malawi's National Adaptation Plan Financing Strategy.
- **EU Humanitarian Impact Evaluation:** Designed market assessments, post-distribution monitoring frameworks, and impact evaluation arrangements for ECHO-funded nutrition-sensitive programming with Self Help Africa International.
- **WFP Consortium Evaluations:** Conducted baseline and mid-term evaluations on nutrition-sensitive and gender-transformative approaches for Food for Asset Resilience projects, informing program adaptation strategies.
- **Digital MEAL Pioneer:** Served as Country Representative for HAAKLER Digital M&E System, driving adoption of digital monitoring solutions across multiple NGOs and development organizations in Malawi.
- **Cyclone Freddy Response:** Designed and led price analysis surveys and outcome evaluations for humanitarian response and early recovery assistance to communities affected by Cyclone Freddy (DAPP Malawi).

CORE COMPETENCIES & TECHNICAL EXPERTISE

- ◆ Impact Evaluation Design (Baseline/Midline/Endline)
- ◆ MEAL Systems & Results Frameworks
- ◆ Theory of Change & Logframe Development
- ◆ Humanitarian Assessment & PDM
- ◆ Digital MEAL Systems (Kobo, ODK, DHIS2)
- ◆ Statistical Analysis (SPSS, STATA, R, Python)
- ◆ Data Visualization (Power BI, Dashboards)
- ◆ GIS & Spatial Analysis (QGIS)
- ◆ Full-Stack Software & Web Development
- ◆ Capacity Building & Knowledge Transfer

HIGH-IMPACT CONSULTING ASSIGNMENTS

Evaluation Consultant | OIKOLOGICA Spain / United Nations (UNEP & EAD)

- Led focus group discussions and field data collection for the UN Environment Programme-funded National Climate Risk and Vulnerability Assessment, informing national climate adaptation policy.
- Directed multisectoral private sector workshop in Blantyre for the National Adaptation Plan (NAP) Financing Strategy, facilitating stakeholder engagement across government, private sector, and civil society.
- Managed digital data collection platforms (Kobo Toolbox, Survey CTO) and performed rigorous data quality assurance across multiple assessment sites.
- Produced comprehensive analytical reports synthesizing climate vulnerability findings for decision-makers at national and international levels.
- Served as Blantyre District Focal Point, coordinating field operations and stakeholder relationships.

Evaluation Consultant (MRTC Subcontract) | World Bank (IFC) / USAID

- Designed and led comprehensive endline evaluation for the USAID-funded Limodzi Project assessing HIV prevention and treatment, maternal and child health, and gender-based violence response outcomes.
- Developed evaluation frameworks aligned with OECD-DAC criteria, USAID evaluation standards, and international best practices.
- Delivered inception reports, financial reports, data collection tools, and secondary data analysis packages.
- Oversaw multi-site data collection operations, implementing validation protocols ensuring data integrity and reliability.
- Engaged directly with IFC Technical Team, responding to review comments and ensuring deliverables met rigorous quality standards.

Information Systems Consultant | National Consultancy Firms (MRTC, MJV, DATAMEX)

- Designed and implemented enterprise Management Information Systems (MIS) for development organizations, enabling real-time program tracking and performance monitoring.
- Developed relational databases and SQL-driven data architectures supporting complex reporting requirements.
- Built interactive reporting dashboards and automated reporting solutions reducing manual reporting effort by up to 60%.
- Integrated digital platforms using RESTful APIs and configured cloud-based information systems for scalable operations.
- Provided cybersecurity advisory services and supported organizations through comprehensive digital transformation programs.
- Delivered end-user training on enterprise applications, building institutional capacity for system sustainability.

PROFESSIONAL EXPERIENCE

Monitoring & Evaluation Coordinator | Self Help Africa International

- Managed program databases and executed rigorous data validation protocols for humanitarian and resilience programmes funded by the European Union.
- Conducted comprehensive data cleaning and quality assurance on large-scale survey datasets, ensuring analytical accuracy for donor reporting.
- Developed analytical reports, performance dashboards, and data visualization products for program monitoring and donor compliance.
- Spearheaded implementation of digital MEAL systems and designed field data verification processes improving data reliability.
- Performed advanced statistical analysis using SPSS, STATA, Excel, and Power BI to generate evidence-based program insights.
- Developed comprehensive MEAL Frameworks, MEAL Plans, Market Assessments, and Theories of Change to guide strategic program delivery.

Monitoring & Evaluation Manager | Foundation for Irrigation and Sustainable Development (FISD Limited)

- Directed database management and maintenance of project information systems supporting WFP consortium resilience and food security programs.
- Led data quality assessments and field validation exercises, establishing quality benchmarks for program monitoring.
- Designed reporting templates and automated reporting solutions streamlining management reporting processes.
- Performed quantitative data analysis and created compelling data visualizations for executive-level management reporting.
- Conducted baseline and mid-term evaluation studies on nutrition-sensitive and gender-transformative approach outcomes for Food for Asset Resilience projects.
- Developed institutional MEAL frameworks, theories of change, and digital tracking systems measuring program impact.

Monitoring & Evaluation Officer | DAPP Malawi

- Led data quality assurance activities for humanitarian response and early recovery interventions following Cyclone Freddy.
- Managed databases and supported large-scale survey data processing for multi-district humanitarian programming.
- Conducted price monitoring, market analysis, and Minimum Expenditure Basket assessments informing humanitarian response decisions.
- Designed and led evaluation studies including baselines, midterms, and endlines across multiple program areas.
- Produced analytical reports and visual dashboards communicating program performance to stakeholders and donors.
- Provided technical guidance and troubleshooting support to field data collection teams on digital data collection systems.

Country Representative – Digital M&E Systems | HAAKLER Company

- Spearheaded national promotion and adoption of digital MEAL systems across NGOs and development organizations in Malawi.
- Built strategic partnerships with implementing organizations to drive digital transformation of monitoring and evaluation practices.
- Delivered product demonstrations, technical support, and capacity building to facilitate system uptake and institutionalization.

Data Collection Supervisor | World Vision International

- Supervised field data collection for Early Childhood Development (ECD) and Maternal and Neonatal Health projects.
- Ensured data quality standards and protocol adherence across multiple data collection teams.

EDUCATION

■ **Master's Degree in Information Systems**

Advanced study in digital systems architecture, data management, and information technology strategy.

■ **Master's Degree in Business Studies**

Advanced study in organizational management, strategic planning, and business analytics.

■ **Bachelor's Degree in Development Studies (Agribusiness Management)**

Foundation in development economics, agricultural systems, and rural livelihood analysis.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

✓ **PMP® – Project Management Professional**

Project Management Institute (PMI)

✓ **Data Science Certification**

Advanced analytics, machine learning, and statistical programming

✓ **Project Management and Monitoring & Evaluation**

Results-based management and evaluation methodologies

TECHNICAL PROFICIENCY

Data Collection Platforms:	Kobo Toolbox, ODK, Survey CTO, CommCare, mWater, DHIS2
Statistical Analysis:	SPSS, STATA, Python, R, Excel (Advanced)
Data Visualization:	Power BI, Interactive Dashboards, Automated Reporting
Database & Development:	SQL, PostgreSQL, Full-Stack Web Development, API Integration
GIS & Spatial:	QGIS, Spatial Analysis, Vulnerability Mapping

PROFESSIONAL MEMBERSHIPS & AFFILIATIONS

• **Project Management Institute (PMI), Malawi Chapter** – Active member engaged in project management and results-based delivery frameworks aligned to MEAL and evaluation systems

- **International MEAL Family (Global)** – Participates in global MEAL knowledge exchange, evaluation methodology innovation, and learning communities
- **Humanitarian Digital MEAL Hub (Global)** – Engaged in digital MEAL innovation, data systems strengthening, and humanitarian evaluation practices
- **Malawi Visual Space MEAL Chapter** – Contributes to advancing data visualization, dashboard design, and data-driven monitoring systems

CLIENTS & INSTITUTIONAL PARTNERS

United Nations (UNEP) • World Bank (IFC) • USAID • European Union (ECHO) • World Food Programme (WFP) • Self Help Africa International • World Vision International • OIKOLOGICA Spain • DAPP Malawi • FISD Limited • National Environmental Affairs Department (EAD)
